Walk the Walk
Spring walk
Summer walk
Autumn walk
Winter walk
At a seasoned pace

The trees grow
As we walk
As we walk
By the trees
Walking wakes the heart

Taking my heart for a walk every day

Heart beats to a walking rhythm
My walking boots
Need help from me
They will not walk
On their own
I take every day in my stride

I measure the day in feet. Moving feet.
Walking
Is flying
On the earth
Walking
Is swimming on the ground
Look at us three: Our six legs cover the world
You amble
I stroll
We get there
Together
Walking
Is thinking
On your feet
First foot forward
Next foot forward
Best foot forward
I took steps
To make myself better;
One foot in front
Of another
Slowly at first:
Then a year’s worth.
Walking
Is dancing
On the map
I took a walk than I brought it back
For you to try, because it made me feel well again.
The medicine is walking
The medicine is working;
repeat the prescription
One step
At a time.
Walking reduces your carbon footprint to shadows like these that fade away.

"I absolutely loved your programme, Lives in a Landscape today and had to use a clip of it for ‘Radio 4 in Four’ If you haven’t heard of 4 in Four before, it’s where we promote and highlight programmes across the network by lifting the best 4 minute clip (or less) and upload it to the site."

What’s for breakfast?
What’s for dinner?
What’s for tea
Well if you want to know
Then listen to me!

Tea is getting
Closer, closer
Sit at the **table** with my **vegetables**
Sit on the steps with my chips
I cook as much As I am able
The taste stays On my lips
Me and my mates
Make empty plates
We can clear
The fullest dish
Put your hands
Into the trifle
And hey
Lets make a wish
What’s for dinner?

What’s for tea?

Well if you want to know

Then listen to me!
