How we COLLABORATE to deliver clinical research

- Invite academic researchers to conduct trials in our hospital
- Co-author papers for journals, and host research dissemination events
- Invite academic researchers to conduct trials in our hospital
- Facilitate meetings between academics, service users and NHS teams
- Seek advice and support from our R&D Department
- Engage clinical services support for research
- Recruit and train staff to work in clinical research
- Provide information to the general public at www.elht.nh.uk/research
- Identify and report to resolve feasibility issues
