Inclusion and exclusion criteria

Inclusion and exclusion criteria were set for the integrative review, as included in the table below. This ensured appropriate papers were selected.

<b>Inclusion Criteria</b>	<b>Exclusion Criteria</b>
Studies reported in English	Studies that focused solely on psychopathy
Studies published from 1984 to the present to ensure thorough searching and of older texts	Studies that focused solely on adolescents
Studies using the terms identified in the integrative review tables	Studies that focused solely on therapeutic communities, specific therapies or prisons
Boolean restrictions were used	Studies that focused solely on addiction
	Studies focused solely on self-harm or suicide
	Studies focused purely on other disciplines other than nursing
	Studies not written in English not translated
